SKILLS

Programming Languages: Java, JavaScript

Frontend Technologies: HTML, CSS, JavaScript

Backend Technologies: JDBC, Servlets, JSP, JEE

Frameworks: Hibernate ORM, Spring Core (IoC)

Databases: MySQL

Soft Skills: Problem Solving, Team Collaboration, Communication, Analytical Thinking, Time Management.

Tools: Eclipse IDE, VS Code, Git/GitHub, Apache Tomcat, MySQL Workbench

PROJECTS

InstantFood — Full Stack Food Delivery Web Application (Swiggy/Zomato Clone)

Java Servlets, JSP, MySQL, JDBC, Apache Tomcat 10.1, Maven, CSS3

– Built a full-stack Food Delivery web app (Swiggy clone) using Java Servlets, JSP, MySQL and Tomcat following MVC architecture with DAO pattern, featuring user auth, restaurant browsing, cart management and order tracking

– Designed normalized MySQL database with 8 tables using JDBC and built a responsive dark-themed UI with JSP, JSTL and CSS3 managing 20 restaurants and 120+ menu items

User Registration Web Application

Java, Servlets, JDBC, MySQL, MVC Architecture.

– Built a full-stack registration system using Java Servlets with MVC architecture, implementing DAO and DAOImpl layers for clean separation of business logic and database operations.

– Integrated JDBC-based MySQL connectivity and deployed on Apache Tomcat 10 with a responsive HTML/CSS frontend.

EDUCATION

Channabasaveshwara Institute of Technology

2022 – 2026

Bachelor of Engineering in Computer Science and Engineering (CGPA: 7.55)

Gubbi, Tumkur

St. Francis comp PU College

2021 – 2022

Pre-University Course, Percentage: (72.08)

Bangalore

Shanthinikethan Trust High School

2019 – 2020

SSLC, Percentage: (82.87)

Bangalore

EXPERIENCE

Tap Academy

Jan 2026 – July

Software Developer Intern (Java Full Stack Developer)

– Developed full-stack web applications using HTML, CSS, JavaScript, Java, JDBC, JSP, and MySQL.

– Implemented CRUD operations, database connectivity, user authentication, and dynamic web functionalities.

– Integrated frontend, backend, and database components following MVC architecture and OOP principles while building and testing multiple projects.

CERTIFICATION

– HTML Certification – KG Coding

– Full Stack Web Development Bootcamp – Udemy
